9960286176   github.com/SumitBachhav

Computer Science student with proficiency in programming languages seeking to apply academic knowledge in software development. Eager learner with strong problem-solving skills for a collaborative environment.

Professional Experience

- Web developer Intern

  Weoto Technologies Pvt. Ltd., Nashik, Maharashtra   *October 2023 – January 2024*

  Leveraged HTML, CSS, JavaScript, React.js and Axios to develop a dynamic portfolio gallery and e-commerce front page. Demonstrated strong problem-solving skills while building interactive web elements. Utilized Git for version control, ensuring efficient collaboration and code management.

Education

- B.E. in Computer Engineering (December 2021 – May 2025), *MET BKC IOE Nashik, Maharashtra*
- 12th Science (PCM), Kendriya Vidyalaya No.1 Devlali, *Nashik, Maharashtra*

Key Skills

- HTML5
- CSS
- JavaScript
- React.js
- Python
- C++
- React Native

Certifications

- OOP with C++, MET BKC IOE

Projects

- E-Commerce front page (React.js, JavaScript) Link
  Created an e-commerce front page using React, integrating Axios for data fetching, and focusing on UI design and user interaction, showcasing proficiency in modern web development techniques..

- Music Player (React Native) Link
  Developed cross-platform music player app using React Native & external libraries, enhancing user experience with interactive controls.

- Password Generator (React Native) Link
  Built secure password generator app in React Native. Users customize length, character sets (uppercase, lowercase, symbols) for strong passwords.

- Portfolio Gallery (HTML, CSS) Link
  Developed a portfolio gallery using HTML, CSS, and JavaScript, showcasing proficiency in front-end development and implementing dynamic features like fetching data from external sources, filtering, and sorting.
